

HOME IMPROVEMENT PAINT SPRAYERS & ACCESSORIES

FROM DIY TO PRO, THERE IS A GRACO SPRAYER DESIGNED FOR EVERY PROJECT

Answering these key questions will help you choose the right sprayer and tip size for your project:

- What types of projects will you spray?
- How many litres sprayed each year? (Estimate based on types of projects)
- What materials will you spray? Refer to the tip chart on page 15-16 to determine the tip size needed for your material.

DYSTAS

DIY Homeowners

- Fast and easy alternative to brush and roller
- Doors, trim, interior walls & ceilings, decks and fences
- Spray up to 200 L/year

PROJECT SERIES

DIY Homeowners and Handymen

- Small-to-midsize household projects
- Doors, trim, interior walls & ceilings, decks, fences, and houses
- Spray up to 500 L/year

PROSERIES

Maintenance, Renovators, and General Contractors

- · Renovations and additions
- Residential, apartments, town homes and small commercial applications
- Spray up to 3000 L/year

PAINT LIKE A PRO. TOP-SPEED PROCESS, TOP-NOTCH RESULTS.

Whether you're a hobbyist, fixer-upper, or absolute beginner, Graco's DIY Series sprayers deliver amazing results. You'll complete your project in half the time it would take using brushes and rollers. With Graco's patented technology you are able to handle thicker water-based materials, giving you a professional, flawless finish.

TRUEAIRLESS

Easy-to-use sprayers for DIY home improvement projects such as doors, trim, furniture, interior walls and ceilings, decks and fences, and small houses.

TrueCoat® 360™

- Stainless Steel Piston Pump delivers high pressure power to spray waterbased paints
- VacuValve[™] Technology allows you to spray in any direction, even upside down!
- Exclusive 0.95L FlexLiner[™] Paint Bag for fast cleanup Part #: 16Y391

TrueCoat 360 DSP

- Dual Speed Control low speed for more control, high speed to get the job done fact!
- Suits water-based paints
- Exclusive 0.95L FlexLiner Paint Bags and lightweight tool bag
- VacuValve Technology allows you to spray in any direction, even upside down! Part #: 16Y392

Project Painter™ Plus

- Flexible Suction Tube sprays directly from 4-15L containers
- Adjustable Pressure Control easy control of paint flow
- Power Flush™ connects to garden hose for fast and easy cleaning Part #: 16W119

TRUEAIRLESS

PAINT SPRAYERS

PROJECT SERIES SPRAYERS

Designed to handle handyman projects such as doors, trim, interior walls and ceilings, decks and fences, and houses.

GET PAINTING DONE ON TIME AND UNDER BUDGET.

The Graco Project Series sprayers make it easy for avid DIY homeowners and handymen to power through midsize jobs with speed and finesse.

The high-pressure pump delivers a finely atomised spray for a flawless professional finish. Move through your project in a fraction of the time you'd spend using brushes and rollers.

TrueCoat 360 VSP™

- Variable Speed Control dial in the precise spray speed to match your project slow to fast!
- 1.24L Paint Bags less refills on bigger projects
- Stainless Steel Piston Pump delivers high pressure power to spray unthinned paints
- VacuValve Technology allows you to spray in any direction, even upside down!
- Suitable for water-based paints Part #: 17F329

Magnum[®] X5

- Delivers 13% More Performance than the Project Painter Plus for spraying heavier coatings
- Adjustable Pressure Control easy control of paint flow
- Flexible Suction Tube spray directly 4-15L paint containers
 Part #: 16W120

Magnum X7

- Delivers 15% More Performance than the X5 and supports a larger spray tip for heavier coatings
- Convenient Cart ideal for exterior applications to move the paint and sprayer around the job site
- Flexible Suction Tube spray directly 4-15L paint containers Part #: 16W121

SWAP OUT YOUR PUMP. STEP UP YOUR PERFORMANCE.

Revolutionise your workday with the Graco Pro Series sprayers. They're equipped with the breakthrough technology of the ProXChange Pump which allows you to replace your pump on the job faster and easier without any tools, eliminating downtime and keeping you spraying. Get your midsize-to-large jobs done faster, smarter and move on to the next project.

TRUEAIRLESS

PAINT SPRAYERS

PRO SERIES SPRAYERS

Graco's Pro Series line of sprayers are ideal for property and contractor jobs ranging from residential and rental properties to apartments, townhomes and small commercial applications.

Magnum ProX17

- Monthly Usage interior walls and ceilings, rental properties and small homes
- ProXChange[™] Pump Replacement System eliminates downtime and extends sprayer life
- Supports Longer Hose Length
- Delivers 10% More Performance than the Magnum X7 Part #: 17H203

Magnum ProX19

- Twice a Month Usage interior walls and ceilings, rental property and small homes
- Supports .019 in spray tip for 12% more performance than the ProX17
- ProXChange Pump Replacement System eliminates downtime and extends sprayer life Part #: 17H210

GX21

- ProXChange Pump Replacement System eliminates downtime and extends sprayer life
- PushPrime Assures fast priming every time
- ProX Piston Pump
- Adjustable Pressure Control
- InstaClean Filter Added filtration to reduce tip clogging
- Flexible Clear Tubing Easy to use clean, spray water finishes directly from 4-15L csontainers
- SG3 Spray Gun LP517 SwitchTip and RAC X Guard Part #: 17H219

GX FF19

- Hopper (5.7 litre) Toolless removal
- Adjustable Pressure Control Allows you to spray or roll a wide range of coatings.
- PushPrime
- Pressure Gauge Oil-filled pressure gauge
- FTx Spray Gun with two-finger trigger RAC X FF LP SwitchTip (FFLP210)
 Part #: 17H223

CHOOSE THE MOST PRODUCTIVE SPRAY TIP FOR YOUR JOB

Choosing the right tip for the job will determine the quality of your finish and help you save time and money. Each Graco tip is 100% tested for flow rate to meet the tough standards of painting contractors and ensure the quality you've come to expect from Graco.

- Use smaller orifice sizes when applying light viscosity materials such as stains and oil based paints
- Use larger orifice sizes for heavier viscosity coatings such as water based paints, membranes

MATERIALS RECOMMENDED TO BE SPRAYED	TIP SIZES (IN)
Oil-base stains, lacquers, and clear coats	0.009 - 0.013
Oil-base enamels and industrial enamels	0.013 - 0.015
Water based paint	0.015 - 0.021

^{*}Do not use flammable solvents. It must be cleaned using non-aggressive solvents like mineral

TIP SELECTION: UNDERSTAND THE NUMBERS

EXAMPLE: RAC X FFLP312

Your actual flow rate will depend on your spraying pressure and the material you are using (high pressure equals more flow; heavier paints equals less flow).

WORN TIPS COST TIME AND MONEY

- A worn tip uses more paint
- · Produces uneven coverage and inconsistent mil build
- Reduces production—requires more passes
- · Results in a poor quality finish

If using a worn tip, on average you will spray 25% more paint and 20% in additional labor.
