

TRUMIX™ 150 XT

VARIABLE-RATIO MIXING SYSTEM

THE SMARTER WAY TO MIX PROTECTIVE COATINGS!

ON-RATIO. ON-DEMAND. EVERY TIME.

Boost productivity with TruMix 150 XT. By automating ratio control and eliminating mixing errors, it streamlines your workflow so protective coatings crews can finish more jobs – faster, smarter, and with less waste.

- Eliminate hot potting errors that waste material and time
- Mix On Demand – exactly what you need, when you need it
- Maximize material working time on fast-cure jobs
- Boost productivity – keep crews spraying, not mixing

**ON-RATIO.
ON-DEMAND.
EVERY TIME.**

TRUMIX™ 150 XT

VARIABLE-RATIO MIXING SYSTEM

PUSH BUTTON OPERATION MIXES UP TO 150 GALLONS PER HOUR!

PRECISE RATIO CONTROL

SmartSync™ Control (PATENT PENDING)

Advanced control system constantly monitors the system's performance and makes instantaneous adjustments to ensure the best possible mix.

Xtreme Torque™ Brushless Motor (PATENT PENDING)

4X finer resolution than traditional motors for superior ratio accuracy and control.

SUPERIOR MIX CONSISTENCY

CrossLink™ Multi-Stage Mix Hose (PATENT PENDING)

Patent-pending multi-stage mixing process provides superior mix quality over traditional bucket-batch methods.

BATCH MODE – NO MEASURING REQUIRED

The BATCH feature allows you to choose exactly how much material is mixed every time – from 0.20 to 25.00 gallons. No measuring is required – just specify the amount and exactly that much mixed material will be dispensed!

PEACE OF MIND

RatioGuard Ratio Assurance

Multi-point monitoring system actively detects potential off-ratio conditions before they can be dispensed.

Integrated Ratio Check

Quick and easy ratio check procedure at start-up ensures a smooth and successful application.

SIMPLE OPERATION

SmartSync™ Control guides operator through the entire setup

- Auto Prime™ primes both pumps and loads the hose with mixed material with the push of a button
- Instant Ratio Check verifies that you are on ratio before you begin your job
- Custom Batch Settings allow you to dispense the exact amount material needed – no more, no less
- Clean the entire system in less than 5 minutes
